

# TRUMP LIVES – TRUMP DERANGEMENT SYNDROME DIES?

SOMERVILLE MA:

July 14, 2024

Conservatives use the term Trump Derangement Syndrome (TDS) to describe abject vitriol that comes from the lips of Certifiable Trump Haters, usually on the left.

Elected officials Nancy Pelosi, Joe Biden and Adam Schiff, and too many others, talk about an Anti-America agenda, they have been infected by TDS. It's a hatred filled disorder where thoughts and words become jumbled and confused, and increasingly vile.

The media and Democrats repeat the cruel Anti-American rhetoric, sometimes on cue. They call Donald Trump "Adolph Hitler", "Evil", and "a Rapist", with no evidence or substantiated facts.

Words can kill and on July 13, 2024 there was an assassination attempt on President Trump's life. The only prescription to cure TDS is to promote election integrity, government accountability, and a return to constitutional principles.

The only candidate for U.S. Senate in Massachusetts prescribing a remedy is Robert Antonellis. He supports the agenda of America First to help those that need this patriotic cure and save American lives in the process.

Respectfully submitted,

Robert Antonellis

U.S. Senate Candidate [R-MA]
